

About MediVault

MediVault is a secure digital health platform that lets you store, access, and share your medical records safely — anytime, anywhere. From prescriptions to lab reports, all your health data is protected under end-to-end encryption, giving you complete control over your digital health journey.

Our mission is to make healthcare simpler, safer, and smarter for every individual by building trust through privacy and innovation.

Why Choose MediVault

1

Secure & Private

Every record is end-to-end encrypted for maximum safety and confidentiality.

2

One Vault for Everything

Store prescriptions, reports, and medical histories in one organized place.

3

ABDM Integrated

Seamlessly connected to India's Ayushman Bharat Digital Mission, enabling verified digital health IDs and secure data exchange.

4

Accessible Anytime, Anywhere

Login from any device and instantly access your complete health history with one click.

MediVault

*Your Health Record
Your Control.*

Our Story

MediVault was founded with a vision to transform healthcare by putting patients first.

We believe your health data belongs to you — not hospitals or third parties.

Our technology ensures that your medical journey is accessible, transparent, and secure.

*Making
healthcare
personal.*

Features

- Encrypted, patient-owned data vault.
